

Further media consolidation will destroy diversity, decrease competition, and work against the public interest. Please do not alter our media landscape. The people do not want this. As public servants you have the responsibility to act in the interest of Americans. Handing our media over to the likes of Clear Channel is not for the people and is certainly not by the people. Listen to Copps and Adlestein. Listen to Congress. Above all, listen to the American people, the owners of the airwaves, and DO NOT destroy our media landscape!
